

KARANG GANGJONG RIKSHUNG BASIC SCHOOL

Mission

Karang Gangjong Rikshung Basic School provides education to the underprivileged children in one of the most remote and undeveloped areas of Nepal to up bring their lives closer to the world of reality. Here we inspire them to grow, learn, act and realize their true potential.

VISION

KARANG GANGJONG RIKSHUNG BASIC SCHOOL serves as an educational organization that sees its future in the heart of hundreds and thousands of children being successful in their lives and could relate their stories back to the beautiful village of Dolpa and far beyond. We are determined to create an opportunities, nurture their potential and inspire their dreams from the day they get in touch with us.

The vision of our organization is not confined to a certain extent but it rather tries to solve the social disparity through education, understanding and inclusiveness approach. So we are eager to win the hearts of young because they are the only one who believes and cares the future.

For years to come, we would be discovering the true potential in every pause, creating the way forward, realizing their dreams, making sure to be competent, confident and after all much more caring than ever before.

IMPACT SINCE 2016...

99 % of the students had attended the school on regular basis and appeared in the annual examination. Parents' **engagement** reached higher than ever before. Winter school was started since 2015 with over 80-90

students including young interested learners from the village.

98.8% of the students had passed in the 2018 annual examination as compared to lower rate for two consecutive years.

OUR WORK

Here we work together with the school management committee, parents, students and the school's staff to attain our goals and

objectives. We emphasize on practical learning than textual through the core model of **LEARN WITH JOY.**

INTERNAL

Library-first-of-its kind

Students and kids get more joy of learning when our team set up the make-shift small library for them to

explore more. At the end the most complete reader will get the prize.

Sports + Entertainment

From this year our children are very happy about the fact that now they can get a membership scheme in four different Houses to showcase their talents in sports, dance, arts, music and so on.

Healthier

Living healthier by cleanliness is very important in early stage of our children in order to get excel in their performance. Friday after lunch is the washing day of our school and we all participate together for Health.

Responsibility

We are responsible for the environment. Our children and school staff participate for weekend's program about the beautiful world we live in and share the knowledge of why we should preserve our natural things.

OUT-OF-THE BOX

Today, learning through only textbook is no longer informative and reliable. So this year we planned and held Inter-School Meet in every school nearby after the meeting of coordinators from different schools. We participated in Inter-School-Meet 2018 and our students were very glad to meet, share, and show their potential among many.

NOT ONLY THAT ↓

We had Educational Tour and Picnic from nursery to class 5. And it was a way changer.

STORIES OF US

We are very thankful to every donor who had been the part of this organization and will walk along for many miles to go. This is the way we chose and today we are really sad about the fact that most of the children are deprived of attaining higher education. Who could imagine a little boy who had turned down his dream of becoming a doctor and helping other? Probably not! Humanity is our life.

FINANCIAL INFORMATION as of 2018

Fund

Donations received during the year	2,425,101
Fund from government	70,000
Total support fund	2,495,101

-------------------------------	-----------

- *It shows an excess of expenditure over income for the fiscal year 2017-2018 due to the amount liable to be paid from the last year cost of FY2016-17.*
- *Financial summary: Assets-2,495,101 Liabilities-421,478 Net Assets-2,073,623 Expenditures (including liability) 2,801,915 in year 2018. Deficit amounted to Rs. 306,814. For detail queries---contact us.*

IFRASTRUCTURE

Year by year we are doing in a better way for bigger goals. So we need more space to learn, grow and play. We started building a two room which can be used as a classroom and library for our students.

It is projected to be completed in 2019. Half percent of the construction cost will be funded from village's fund from government.

The winter school is expected to be operated in the same school from next year but weather is the biggest challenge for us.

OUR PARTNERS ----- TOGETHER, FOR BRIGHTER FUTURE

Karang Gangjong Rikshung Basic School would like to thank every donor who walked along with us through 2018 for the future of children. You all have been a great partner, supporter and an advisor for this organization. We are very grateful to work with you and still we have big dreams to close the gap of disparity through education. **Altitude Project** is our main sponsor for years ahead and we are very grateful to their dedication.

David Swain of Altitude Project, Peter Werth, Sonngard Trindler & Dolpo Tulku Charitable Foundation remained as our major donors of year 2018.
